

September 30th

Dear Parents,

Hard to believe we have been here for almost a month. Students and staff have settled in and as a result we would like to update you on some resource and methods procedures and concerns.

Students on an SEP (Special Education Plan) have been identified and all teachers have received information about how best to meet student needs. They are also aware that they may access the e-SEP's for further ideas. Teacher Assistants have been placed in many classroom and students have access on a shared basis.

For your convenience, students with organizational issues are asked to keep extra supplies such as paper, pencils, pens in the resource room so that they may come and get them when they forget things at home. Please send these items in and we will store the supplies for them. Label each and put in a small box or bag. Also, those students using assistive technology are asked to have their own headsets/earbuds to plug in the computer for Hygiene reasons.

Communication is a key part of what we do. If you have any concerns feel free to contact us here in the resource area. Mrs. Guravich is responsible for most grade 11 and 12 students. Mrs. Rourke is responsible for grade 10 students, and Mrs. Aasen-Haines is assigned to the grade 9 students as well as SPR (supplementary position of responsibility) for the resource and methods department.

We are looking forward to working with you and your child.
